

Annex B – Instructional guide on the use of the TraceTogether Token vending machine

HOW TO USE

- Step 1:** Scan the barcode on your ID card (You can also use your Singpass digital IC).
- Step 2:** Scan the QR code on your old TraceTogether Token.
- Step 3:** Retrieve your new Token from the retrieval unit near the bottom of the vending machine.
- Step 4:** Drop off your old Token in the marked slot.
- Step 5:** Check your new Token by tapping it on the SafeEntry Gateway Box fitted at the side of the vending machine. You will see a green light and hear a beep if the new Token is working.
